## Infrastructure Consolidation Program (ICP) Workgroup Charter

Workgroup Name	<b>Charter Last Modified</b>	OCIO Lead
Security	February 22, 2010	Rob Schmidt

### **Overview**

As directed by the Infrastructure Consolidation Program (ICP) Security Workgroup has been formed to help direct the states vision of a secure infrastructure. The Workgroup will work in concert with existing ICP program workgroups to define the roadmap for delivering on the IT Security goals and objectives of the State.

### **Background**

The Infrastructure Consolidation Program has been established through Executive Order S-03-10 to improve the State IT's efficiency, effectiveness, agility, security and reliability while reducing costs and energy usage.

#### As stated in the Executive Order:

For all agencies under my direct executive authority, ISOs shall investigate, resolve, and report all information security incidents to the Office of Information Security (OIS) within the OCIO. In addition ISOs shall: complete disaster recovery planning and agency-wide risk assessments; conduct and document information security awareness training for all agency employees on an annual basis; report security metrics using methodologies developed by the OIS; and participate in activities coordinated by the OIS in order to better understand and address security incidents and critical cyber security threats to the state.

As stated in the California Information Security Strategic Plan:

A DIGITAL INFRASTRUCTURE THAT IS RESILIENT, SECURE, AND TRUSTWORTHY –

OIS will collaborate with state agencies, the private sector, and the federal
government to implement state-of-the-art enterprise information security
technologies to combat risks to the availability, integrity, and trustworthiness of
California's digital infrastructure, including critical infrastructures. Strengthening
the resilience of our digital infrastructure will require innovation and a holistic
enterprise information security approach to address cyber risks in the state.

#### **End-State**

- State Enterprise Cyber Security Risk Assessment
- Secure.ca.gov Domain Name System Project
- Secure I-Hub will provide first level security for Internet connections; all Internet connectivity will be provided via the I-Hub's
- OCIO/OTech will develop compliant infrastructures in order to host applications that store, transmit or process: credit card data, health information and confidential tax information.

### **Meetings**

The Workgroup meets regularly, on a bi-weekly basis beginning February 15, 2009.

## Infrastructure Consolidation Program (ICP) Workgroup Charter

### **Membership**

Set by the State CIO and the Executive Sponsors

### **Deliverables**

The deliverables for this workgroup include the following work products.

- 1. Workgroup Consolidation Plan
- 2. Security Methodologies as completed through the State Enterprise Security Risk Assessment
- 3. Interim milestone reports from the Secure.ca.gov Domain Name System Project
- 4. Interim milestone reports from Secure I-Hub Project
- 5. Interim milestone reports from Complaint Infrastructure Project
- 6. Workgroup Final Report

### **Successful Completion Criteria**

The workgroup will disband when the deliverables have been completed and End-State is in operation.

### Workgroup

OCIO Lead: Rob Schmidt	
Executive Sponsors	Members
Mark Weatherford	Steve Moore (Secure I-Hub)
